THE HOME OF CHRYSANTHEMUMS

1925

Foreword

It is with pleasure that I am sending to customers this my fourth annual price list of Chrysanthemums. My thanks are tendered to the many old customers who have shown their approval of the quality of my stock and my methods of serving them, by repeated orders.

Many new varieties of merit will be found added to the list, while many varieties have been dropped because they have either not proved desirable, or have been superseded by newer and better varieties in their class. Each year all the new introductions are procured and tested out, and those which do not measure up to my very high standard of quality are dropped from the list. Of course, all growers will understand that in the case of new varieties offered which have not been out long enough to be tested by me in my own place, they are sent out under the description and the recommendation of the introducer; but any such variety which appears the second year in my list has in every case been tested out by me and found to have merit.

It is my aim to send out nothing but stock of the very highest quality and my customers may be sure that in procuring plants from me they are absolutely guaranteed against introducing disease or insect pests into their establishments through infested shipments.

The CHRYSANTHEMUM MIDGE is the most serious pest which troubles the chrysanthemum plant today, both from the wholesale damage which it does, the rapidity of its increase and the difficulty of eradicating it when once established. There is no midge in my shipping stock, has not been any, and there never will be any. All new stock received by me is put into quarantine and does not go into the houses with my general stock until proved to be entirely free from insects or disease. My greenhouses and their contents are carefully and thoroughly inspected each year by officials of the State of Illinois, who are appointed for that purpose.

My establishment contains thirty-five thousand feet of glass, devoted to the growing and testing of chrysanthemums and the production of young stock for the trade, and the enormous quantities turned out enable me to fill large orders at short notice. I especially aim to be in position to fill late orders and to take care of the wants of those who have been unfortunate enough to lose stock which they had relied upon for planting.

A special effort is made to ship orders early in the week so that plants will not arrive on Saturday, or there will not be danger of their lying in the express office over Sunday.

Considering the uniform high quality of the stock sent out, prices are very moderate. Special quotations on large quantities.

HANS JEPSEN, MAYWOOD, ILLINOIS

Chicago, November 16, 1924

Mr. Hans Jepsen,
Maywood, Ill.

Dear Mr. Jepsen:—

I want to let you know that I think your new Chrysanthemum "Nettie L. Parker" is a wonderful addition to our Fall Chrysanthemums.

Its color and keeping qualities have made it very popular both to us and our customers.

Good luck to you and may we have more mums like it this coming season.

Yours truly,

ERNEST WIENHOEGER CO.
No 22 East Elm Street
Chicago, Ill.

December 1st, 1924.

Mr. Hans Jepsen,
Maywood, Ill.

Dear Sir:—

You have a wonderful new Chrysanthemum in "Nettie L. Parker" it having that silver sheen over the dark lavender pink and being of the incurved variety will make it a good shipper for the wholesaler and its dark color a favorite with the retailer, as the call is now for the darker colors.

I predict a great future for your new Chrysanthemum "Nettie L. Parker".

Yours truly

GEORGE C. WEILAND
602 Davis Street
Evanston, Illinois

December 4, 1924

Mr. Hans Jepsen,
Maywood, Ill.

Dear Mr. Jepsen:—

Regarding the new chrysanthemum "Nettie L. Parker." We are well pleased with this variety. It is a beautiful lavender and a color that we have desired for a long time. The keeping quality is excellent. We placed the chrysanthemums in our window and left them there for a week; we then put them in our ice box, where they lasted for several days longer. It is a pleasure to handle such good quality stock and we are anxious to see a large quantity of this stock sold on the market next year.

Very truly yours,

BOHANNON FLORAL COMPANY
75 E. Monroe St. - 104 S. Michigan Ave.
Chicago, Illinois

Notice

Many growers have asked how to control the Chrysanthemum Midge. There are very many different methods, but I have followed the directions from Farmers' Bulletin No. 1306, U. S. Department of Agriculture and can recommend same very highly. A bulletin every grower should own.
